

DASARI VAMSI

+91 9704331950 | dasarivamsi514@gmail.com | github.com/vamsi1426 | www.linkedin.com/in/vamsi-dasari

SUMMARY

Aspiring AI Engineer with strong foundations in machine learning and software development. Skilled in building intelligent applications using modern technologies and AI tools. Interested in solving real-world problems through AI-driven systems and continuously learning emerging technologies.

TECHNICAL SKILLS

Programming Languages	Web Development	Tools/Cloud/Software
Python, java, JavaScript	HTML, CSS, React.Js, Node.Js, Javascript	MySQL, MongoDB, Kali linux, Git, GitHub, AI, Gen AI,LLM

PROJECTS

MALICIOUS URL DETECTION SVM WITH LLM

Developed a hybrid machine learning model to detect malicious URLs by extracting key URL features such as domain patterns and redirection behavior for prediction

Tech Stack: Python,SVM,LLM,Regex,URL parsing.

LOSTMATE-INTELLIGENT ITEM MATCHING & RECOVERY SYSTEM

Built an AI-powered web application that intelligently matches lost and found items using user inputs and similarity algorithms, enabling faster and more accurate item recovery.

Tech Stack: Java,Spring Boot,HTML,CSS,AI,Machine Learning,Firebase

EDUCATION

Narayana Engineering College Computer Science & Engineering - 85%	(2021-2025)
Sri Chaitanya Junior College MPC Intermediate - 83%	(2019-2021)
Oxford English Medium High School Higher Secondary School - 87%	(2018-2019)

EXPERIENCE

Freelance Web & Mobile App Developer

[Jan 2025 to Continue..]

Developed and deployed full-stack web applications independently. Managed the complete development lifecycle including design, development, testing, and deployment. Focused on building scalable applications with good user experience and optimized performance using modern development tools and AI-assisted workflows.

ADDITIONAL INFORMATION

Achievements	Leadership & Community
- Ninja Slayground 2.0 Finisher, demonstrating consistency and competitive coding practice. - Participated in Hackademia at NECN, collaborating in team-based learning.	- Coding club-Led coding activities,mentored peers,and contributed to collaborative projects. - self motivated and keen intrest on learning new things.
